

Intervention 2.1.2: Bolster professional capacity of government officials

At the MMDA level, there are two broad categories of government officials, namely, the bureaucrats (staff of MMDAs/ RCCs) and political functionaries (Mayors- MMDCEs and Councillors- Assembly Members). Bolstering the capacity of these government officials require review and integration of existing training programmes with behavioural change modules. The review will also entail training needs assessments of the staff and political functionaries. The training interventions will be delivered in several forms (blended approach) ie in-class, virtual, modular, sandwich, on-site, etc to ensure training makes the desired impact, effective and cost-efficient. The three campuses of ILGS will provide subsidised venues for in-class training in Accra, Tamale and Kumasi.
